Oracle of Water's Promise

Through your efforts to rescue the Gunsen of water, you have earned the gratitude of the Oracle of Water. She has granted you a tie to the Gunsen's fate, allowing you to call upon the weapon at a time of great need.

At any one time in the future, you may surrender this cert to your GM to find yourself instantly holding the Gunsen of Water. It is yours to use for one scene or combat, after which it disappears forever.

The Gunsen of Water is a DR 1k3 war fan. It adds twice the wielders Water Ring to the wielder's Armor TN (Mastery Abilities add to this normally). Additionally, it grants the wielder an additional +1k1 on any War Fan or Battle roll made while wielding it. Finally, the wielder can sense any Water spell aimed at him or her, and may choose to increase the TN of the spell by +30. Even if the Spellcasting Roll is successful, the wielder may reduce any numerical effects of the spell on him or her by half.
