Sorinpu, the Hell Razor

“Shun Yu the King of Wo took me from the Pit
of Ten Thousand Knives. I flay the wicked.”

Sorinpu is a 2k2 bronze nemurani tsurugi (A straight-blade double-edged broadsword); with an embossed pattern of flames along the blade and a snarling face on the hilt.

It uses the Kenjutsu Skill to attack, but requires its own emphasis. As bronze weapons require upkeep, it is a 1k2 weapon unless it is sharpened at the beginning of the mod, requiring a **Kenjutsu/Intelligence** roll, TN 20, at which point it does 2k2 damage. The Hell Razor also creates a Fear 2 effect against spirits (or returned spirits) from Toshigoku, the Realm of Slaughter. As a nemuranai, it ignores Invulnerability on most creatures.

Any of the swords other benefits are unknown at this time.
